Smart Home Made Simple

Touchscreen control

Brilliant makes it easy for everyone (families, kids, guests, and more) to control your smart home using built-in touchscreen panels.

One app for your home

Eliminate the hassle of using multiple apps. Control your home from anywhere with the the all-in-one Brilliant app for iOS & Android.

Popular integrations

Easily add smart home products to control using your Brilliant system. Easily create custom scenes and home automations.

LIGHTING

Control lights with dimmers, voice, motion detection, scenes, or an app

Smart light switches, smart bulbs

VIDEO DOORBELLS + ACCESS

See who's at the door from any room and let them in

Video doorbells, smart locks

CLIMATE

Adjust the temp directly or use scenes, schedules, or an app

Smart thermostats

LOCKS & GARAGE OPENERS

Control your doors and garage access with a tap

Smart locks, garage openers

VOICE

Use Alexa built-in or add other popular voice assistants

Alexa built-in, Google Assistant, HomeKit/Siri

INTERCOM

Speak with people in other rooms or broadcast announcements
